## Summary

Motivated Web Developer seeking a career in a dynamic software development team. Highly competent front-end development skills, with an emphasis on JavaScript and its libraries (jQuery, Angular). Confident back-end development skills, especially using PHP and Drupal, from successful completion of challenging projects.

Self-taught, with a real interest in keeping up-to-date with the latest web standards, languages and methods. Makes extensive use of tools such as Git, Grunt and SASS to boost productivity and achieve the best results possible. A deep understanding of how computers and the internet works, and a high level of technical and networking skills.

## Experience

**01/16 – 10/16** web developer at digital agency **Southmedia Ltd.** Bristol. Responsible for front and backend development of both Wordpress and Drupal websites. Typically working from designs, but often given free rein on improving existing websites. Whether working individually or with a small team - constantly striving to operate within timescales and hit targets.

**03/13 – 12/15** **freelancing web designer/developer.** Creating websites with Drupal 7 CMS, developing themes and modules. Building SPA with AngularJS. Maintaining already build systems. Constantly working with HTML, CSS and JS. Experience with MVC pattern. Creating design with Adobe tools.

**06/10 – 12/12** **Leader, developer. Electric-Shop-Online,** Lithuania. Responsible for communicating with customers. Selling and advertising digital goods. Maintaining the main online store. Repairing, installing and maintaining consumer grade digital equipment.
